

The Australian Wine
Research Institute

Working smarter, not harder in the vineyard: making the most of your smart phone and tablet

Who doesn't love a bright, shiny, new gadget?

If you're up to your eyeballs in 'iEverything' but don't feel you're maximising the technology or you're yet to dip your toe in the world of apps, social media, downloads and Mbs, then this workshop is for you.

In this morning session, we'll cover:

- What to consider before purchasing
- Internet access, data plans and coverage
 - Accessories
- Working remotely: taking your office with you wherever you are
 - Mobile security
 - Cloud computing
- Apps which could be useful for you and your business
 - Social media
- What's in the pipeline...or in the Cloud?

Wednesday 15 January 2013

9.00 am – 1.00 pm
Barossa Weintal Resort
235 Murray Street, Tanunda

Thursday 16 January 2013

9.00 am – 1.00 pm
McLaren Vale Visitors Centre
Main Road, McLaren Vale

This session will be interactive and both venues are Wi-Fi enabled, so bring your smart phone and tablet along if you have one.
