JOIN US AT THE ORANGE NSW DPI SUSTAINABILITY WORKSHOP

Have you ever wondered if your vineyard management practices are truly sustainable, and which vineyard system is actually the most beneficial for your bottom line? These questions and many more will be answered at the NSW DPI Sustainability Workshop to be held in Orange on Wednesday 18 May 2016. A must do event for winemakers and grapegrowers.

This workshop will cover three topics.

1. The relative sustainability of organic, biodynamic and conventional viticulture.
Chris Penfold – University of Adelaide
2. Entwine Australia – supporting a sustainable wine industry – the AWRI team
3. Ross Hill wines – case study on seeking and becoming the first Australian Government carbon neutral certified winery – Peter Robson

Free event, morning tea and lunch provided
