

# AWRI Advanced Viticulture Course

12 – 14 October 2020

The Australian Wine  
Research Institute

The AWRI is hosting an intensive course on the latest techniques and technologies in viticulture. Participants will travel in a small group across a number of SA regions to visit sites and meet practitioners who are at the cutting-edge of Australian viticulture.

The course will explore a range of practices and new technologies that are delivering improvements in vineyard efficiency, sustainability and profitability. Participants will hear from experts, taste wines from viticultural trials and discover new developments. Interaction among participants and with the course presenters will enhance learning and help drive innovation in Australian viticulture.

**Locations:** The course starts and finishes in Adelaide, and visits sites across the Barossa, Riverland, McLaren Vale and Adelaide Hills regions.

**Participants:** The course is aimed at practising viticulturists with an interest in innovation and is limited to a maximum of 20 participants to ensure an intensive and interactive learning experience.

**Cost:** \$2,400 per person including GST. Course fee includes all accommodation (including one night's accommodation in Adelaide before the course, meals and transport).

**Contact:** For more information about the course, contact AWRI Events on 08 8313 6600 or [events@awri.com.au](mailto:events@awri.com.au).

Registration is required to secure a place in the course – **book early to avoid disappointment.**

Limited to  
just 20  
participants
