

Australian Government
**Australian Pesticides and
Veterinary Medicines Authority**

**PERMIT TO ALLOW EMERGENCY USE
OF A REGISTERED AGVET CHEMICAL PRODUCT**

PERMIT NUMBER -PER12605

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows any person to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 7 DECEMBER 2010 TO 30 APRIL 2011.

Permit Holder:

AUSTRALIAN WINE RESEARCH INSTITUTE
Cnr Hartley Grove and Paratoo Rd
GLEN OSMOND SA 5064

Persons who can use the product under this permit:

Persons generally.

CONDITIONS OF USE

Product to be used:

MAX MZ FUNGICIDE

Containing:40 g/L METALAXYL

320 g/L MANCOZEB as the only active constituents.

Directions for Use:

Crop	Purpose	Rate
Grapevines	Downy mildew (<i>Plasmopara viticola</i>)	500mL/100L

Critical Use Comments:

- Make first application when conditions favour disease development and before infection has occurred - before any 'oil spot' are visible.
- Ensure thorough coverage of all plant surfaces.
- Repeat application 7-10 days later. Use the shorter interval when disease infection is severe.
- Addition of a non ionic surfactant is recommended.
- DO NOT apply more than *two* consecutive applications of Max MZ.
- Apply a maximum of *four* applications of Max MZ per season.
- This use is subject to a CropLife anti-resistance strategy. DO NOT apply more than 2 consecutive sprays of a Group D product. Apply a maximum of 4 Metalaxyl sprays per season.

Withholding Period:

Harvest: DO NOT harvest for 14 days after last application

Note: For grapes destined for export wine users should refer to recommendations as included in the AWRI publication *Agrochemicals registered for use in Australian viticulture 2010/2011*. For products containing metalaxyl and/or mancozeb the publication recommends to *Use no later than 30 days before harvest*.

Jurisdiction:

ALL States except Vic

(Note: Victoria is not included in this permit because their 'control-of-use' legislation means that a permit is not required to legalise this off-label use in VIC).

Additional Conditions:

THIS PERMIT provides for the use of a product in a manner other than specified on the approved label of the product. Unless otherwise stated in this permit, the use of the product must be in accordance with instructions on its label.

PERSONS who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.
