

## Winemaking and Extension Services

The Australian wine producer's  
source of winemaking, technical  
and educational support and  
extension services

The support team comprises experienced  
winemakers and technical staff. Our service  
is provided free of charge for Australian levy  
payers and include:

### Winemaking consultancy and problem solving services

- > Advice on best practice winemaking and packaging
- > Investigation and solving of winemaking problems
- > Identification of chemical and microbiological hazes and deposits in wine
- > Identification of wine faults and taints
- > Emergency response to wine sector crises

### Web-based winemaking resources

- > Winemaking calculators
- > Recognising wine taints and faults
- > Identifying common winemaking hazes and deposits
- > Winemaking, sensory and laboratory methods
- > Wine production information
- > Frequently asked questions

### Extension events

- > National roadshow seminar and workshop program
- > Advanced Wine Assessment Course™
- > Research to practice™
